Lenguaje de Marcas

Bases de Datos

Uno de los contenidos más importantes que aprendemos en Lenguaje de Marcas es la programación en HTML. Un ejemplo de lo que vemos en clase son los **ENLACES**. Para hacer enlaces, vínculos, links, hipervínculos, o como queráis llamarlos, se utiliza la etiqueta **a** y debemos darle el atributo **href** obligatorio.

## Tipos de enlaces:

**Enlace a una página nuestra ( a href=index.html ):**

ir a [home](#)

**Enlace a una página de internet ( a href=https://www.google.es ):**

ir a [google](https://www.google.es)

**Enlace a una página en una pestaña nueva ( a href=... target=\_blank ):**

ir a [google](#) en otra pestaña.

**Enlace sobre una imagen:**

Práctica HTML

LENGUAJE DE MARCAS

file:///C:/Users/Franr/Desktop/practicaLM1trim/marcas.html

80%

**Enlace a una direccion de correo ( a href=mailto: ):**

Mandar mail al [webmaster](mailto:webmaster)

**Enlaces de marcador ( a name=marca, a href=#marca ):**

**Bajar abajo de la página y pulsar sobre la flecha**

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum

Lenguaje de Marcas

Bases de Datos

Las gestión de datos es **fundamental** en el ámbito de la informática ya que es la ciencia que estudia y trabaja con información (datos). Trabajar con *Databases* es una competencia clave a la hora de poder desarrollarnos profesionalmente en el sector. Uno de los elementos clave para trabajar con Bases de Datos es conocer **SQL**. A través de creación de tablas, restricciones como `primarykey` o `foreignkey` conseguimos gestionar bases de datos **relacionales**.

Plan de trabajo con distintos tipos de BASES DE DATOS

	1º Trimestre			2º Trimestre		
	Octubre	Noviembre	Diciembre	Enero	Febrero	Marzo
Relacionales	ACCESS	MY SQL	Maria DB	Oracle	SQL Lite	Maria DB
			Oracle		Postgre SQL	MY SQL
NO SQL	Amazon Dynamo	Amazon Dynamo	Mongo DB	Mongo DB	Cassandra	
	Neo 4j			Riak	Neo 4j	

Información sobre conocimientos en BASE DE DATOS

¿Qué tipo de BD manejas mejor? Relacionales

¿Qué SGDB estás acostumbrado a usar?

☒ Maria DB
 ☐ MY SQL
 ☐ Oracle

Sube algún certificado oficial de cursos en BD (solo en .PDF)
